

THE STORY MUSEUM

Interested in design or production?
Looking to learn new skills?
Curious about exhibition creation?

STORY CURATORS

Weekly sessions every Tuesday

16:30 - 18:30

The Story Museum

Join our Story Curators course to learn how exhibitions and installations are created – from first ideas to fully built!

The course runs on a weekly basis,
September 2025 - July 2026.

To find out more, visit storymuseum.org.uk/story-shapers

To sign up to your free place, email learning@storymuseum.org.uk for an application form.

Get hands-on with the Museum's professional Exhibitions and Production Teams to develop skills in curation, design and construction, and work towards installations which will feature in our Galleries and Events programme for all our visitors to enjoy!

This year participants will see their design and making work showcased in our next Treasure Chamber exhibition - opening July 2026!

Priority will be given to participants who have completed Year 1 and 2, followed by those who have attended the Summer Taster Week.

SUMMER 2025: FREE SKILLS WORKSHOPS

Join us for the Story Curators Summer Holidays Workshops this August!

Story Curators - *Virtually Real!*

Four days of **FREE**, hands-on, immersive workshops for 11–16-year-olds at The Story Museum, exploring real-world ways to design and create characters, games and worlds inspired by digital ones.

Working alongside exhibition designers, you'll be introduced to lots of different design and technical skills from miniature model-making to character design to sound design and more.

Tuesday 19 August:

Take a backstage tour of our new gallery "The Story Arcade" to find out how exhibitions are designed and built. Design an interactive, immersive off-the-screen adventure that translates the digital world into the real one.

Wednesday 20 August:

What makes great character design? Explore how early video game designers created iconic characters using pixels and create your own. Transform your designs into cardboard costumes and puppets.

Thursday 21 August:

Learn how designers create 3D miniature scale models to help test their designs. Explore the tools, materials and skills needed and then work together to design and build a miniature cardboard model of a platform adventure game.

Friday 22 August:

Learn how to design and create a soundtrack to your virtual world in our Woodshed Theatre. Record voiceovers, create sound effects and use music to create characters and worlds.

Story Curators: *Virtually Real!*

The Story Museum

19 - 22 August

10:00 - 16:00

Bring your imaginations and clothes to get messy in. Come for a day - or even better - stay for them all!
